

When It Comes To Plating On Plastics, There Is Nothing We Can't Do

MacDermid MacuPlex is the world's leading family of plating on plastics pretreatment systems and is specified by applicators for everything from automobile parts to home appliances and cell phone antennas. Providing the ultimate in reliability and performance, it is the first choice for even the most complex designs.

For more than 20 years, **MacuPlex** technology has satisfied every single one of our customer's application requirements, as it is their needs that drive our innovation process. No matter what the challenge, we have been able to meet it, which is what led to MacuPlex being the first pretreatment system to be used and trusted on a large industrial scale. Because of our applications experience, we are continually asked to develop process cycles for an increasing number of plastics and plastic alloy substrates, and today, wherever you find plating on plastics, you are sure to find MacuPlex.

No matter what your plating on plastics need, count on the company that says "Yes We Can." MacDermid.

Key Features

- Superior reliability and performance
- Production proven for over 20 years
- The most widely used pretreatment systems in the world
- Exceptionally stable family of products
- Applications expertise surpasses all others

MacuPlex™

Plated Plastic Coatings

The Best Plating On Plastics Pretreatment System. Period.

No matter what your plating on plastics application need, **MacDermid MacuPlex** is the right choice. Trusted by manufacturers worldwide, MacuPlex is the #1 pretreatment system specified by applicators for even their most complex requirements. With over 50 years of applications know-how, we have been at the forefront of industry innovation, driven by customer need for more reliable and higher performing solutions that meet their own customers' needs.

No matter where you find plating on plastics, you will find a MacDermid customer.

MacuPlex ABS

Etch Surfactants	Neutralizers
Pd Activation	Ionic Catalyst
Super Catalyst	Accelerators
Non Ammonia EN	All Nickel Systems

Substrate Range

ABS	Polyarylamide
ABS / PC Alloys	Polyamide
Polycarbonate	Polyester Polytherimide

YES WE CAN™

It takes more than innovative, high performance products and superior technical service to help our customers compete and win in today's global marketplace. It takes a total commitment to understanding their needs and the ability to provide the right solutions—every time.

When success is your only goal, trust the company that says "Yes We Can."
